NEW YORK

Vers Le Futur Numéro 2

New York, the legendary city where everything started. Everytime I find myself there, I am as amazed as I was the first time I walked its streets. Exploring the urban areas that form this huge city, you are constantly reminded of the deep history that lies within its walls. The birthplace of the graffiti movement still holds many treasures, from small tags to huge pieces, from the train tracks to the reisdential areas the surprises are constant. Here is a collection of some of my finds during my last two trips. Thanks to Brookster who made this issue possible.

New York, la ville légendaire où tout a commencé. Chaque fois que je m'y trouve , je suis toujours aussi émerveillé qu'à ma première venue. En explorant ces multitudes d'environnements urbains, on est constamment rappeler de l'histoire que transportent les murs qui forment cette immense cité. Le berceau du mouvement graffiti contient toujours des trésors, de minuscules tags à des pièces géantes les surprises sont constantes. Voici une collection de quelques unes des mes trouvailles durant mes deux derniers voyages. Merci a mon hôte qui a rendu ce numéro possible.
